

UTSAV BHORANIYA

MERN-Stack Developer

✉ utsav8196@gmail.com ☎ +91 9904988263 📍 Surat, Gujarat, India

ABOUT ME

Full-Stack MERN Developer with hands-on experience building and deploying production-ready applications, including a complete e-commerce platform with authentication, cart/checkout, payments, and role-based access control. Strong in backend development, MongoDB data modeling, and secure REST APIs, with practical React frontend experience. Brings **3+ years** of leadership and execution experience from the construction industry, translating complex requirements into reliable solutions. Actively seeking a junior developer role to work on real-world, scalable products.

TECHNICAL SKILLS

Programming & Frontend

- JavaScript (ES6+)
- HTML5, CSS3
- React.js
- Responsive Web Design
- Tailwind CSS, Bootstrap

Security

- JSON Web Tokens (JWT)
- Bcrypt Password Hashing
- Role-Based Access Control
- Input Validation

Backend Development

- Node.js
- Express.js
- RESTful API Development
- MVC Architecture
- Middleware Implementation
- Authentication & Authorization

Cloud & Deployment

- AWS EC2 (Ubuntu)
- Nginx Reverse Proxy
- PM2
- Environment Variables & Configuration
- Production Deployment

Backend Development

- MongoDB
- Mongoose
- Schema Design
- Indexing
- Aggregation Pipelines
- Data Modeling

Development Tools

- Git, GitHub
- Postman
- NPM

PROJECTS

EarCrafters, Full Stack E-Commerce Platform

Tech Stack: JavaScript, Node.js, Express.js, MongoDB, Mongoose, MVC, AWS EC2

- Built a full-stack e-commerce platform using **MVC architecture** with clean, modular backend design.
- Implemented **role-based access control** with separate **admin and user routes** using authentication middleware.
- Developed **secure session-based authentication** with bcrypt and integrated **Google OAuth** using Passport.js.
- Built product, cart, and checkout systems with **search, filters, pagination, and inventory validation**.
- Integrated **Razorpay payment gateway** and complete order management flow with invoice generation.
- Implemented **image upload and optimization** using Multer and Sharp, and **email notifications** using Nodemailer.
- Generated **admin reports** in Excel format.
- Deployed on **AWS EC2 using PM2 and Nginx**; currently hosting **live demo on Render (free tier)**.

PROFESSIONAL EXPERIENCE

Front Line Supervisor, L&T Construction (Railways)

- Led and coordinated daily operations for multi-team railway construction work.
- Managed workforce scheduling, task assignment, and deadline-driven execution.
- Maintained operational efficiency by planning manpower, materials, and tools.
- Ensured strict compliance with safety protocols, achieving **zero safety incidents**.
- Communicated with engineers and clients for progress updates and requirement changes.

Transferable Strengths: Team leadership, time management, adaptability, structured problem-solving, decision-making under pressure.

EDUCATION & TRAINING

MERN Stack Development, Brototype

- Hands-on development of full-stack applications using MongoDB, Express.js, React.js, Node.js.
- Built projects using real-world features such as authentication, Razorpay integration, and admin dashboards.
- Trained in debugging, clean code practices, and production deployment.

ITI in Fitter, National Council for Vocational Training
